Location: Chennai, India

Professional Summary

Recent Computer Science Engineering graduate with expertise in **Core Java, OOPs**, and **full stack development**. Built scalable applications like a **Bank Management System** and a **CNN based medical diagnosis tool**. Certified with a **5-star Java badge (HackerRank)**. Strong problem-solving skills with active participation on **LeetCode**.

Technical Skills

- **Languages:** Core Java, Python(Basics)
- **Database:** SQL
- **Tools:** Vs code, IntelliJ, Git, Postman
- **Concepts:** Data Structures(Basics), OOPs, Collections Framework(Java)

Education

- **B.Tech (CSE)**
Sri Venkateswara College of Engineering | 2023 | CGPA: 7.2
- **Intermediate (MPC)**
Narayana Junior College | CGPA: 7.9
- **Secondary School Education (SSE)**
D.A.V High School | GPA: 8.3

Projects

1. Bank Management System (Core Java)

- Engineered a text-based system with account creation, deposits, withdrawals, and balance Enquiries.
- Utilized **serialization** for data persistence and **OOPs principles** for modular design.
- Integrated error handling and data validation for robustness.
- Managed codebase using **Git** for collaboration.
- Project codebase - [_Git-Hub_](#).

2. Diabetic Retinopathy Classification (CNN)

- Developed a deep learning model using **Python** and **Convolutional Neural Networks (CNN)**.
- Leveraged image processing libraries to automate medical diagnosis.

Certifications and Training

- Java Full Stack Course (Jspiders, 2023)
- Got 5-star Badge in [_HackerRank_](#)
- Problem Solving in [_LeetCode_](#)
- Completed 6 months Internship on **UI Testing** and **API Testing** in **AI Infotech**

Strengths

Quick Learner | Self-Motivated | Leadership | Team Collaboration

Declaration

"I confirm the accuracy of the above details".
